Agenda Items

- Confirm deadline
- Showcase updated UI
- Showcase APIs
- Confirm next meeting

Decisions

- Add confirm user create to show the user that they have created a new user (popup)
- "Looks polished"
- Fix search formatting bug
- Suggestion by client: for searching he wants something that can search for all instead of just movie, tv show, and anime

- Client wondering about “if i was looking for big bang theory and just searched up ‘bang’ would I get everything related to big?” He’s wondering if we can implement a smarter search
- Asking about API and making an account
- Wants to make his own API key
- Asking about a reset password option incase you forget, but hes ok with admin panel handling it (we dont need to have a reset password he says for the sake of this project we don’t need to)
- He loves it
- 2:40pm next tuesday is deadline (June 16th)

Other Notes and Information

- Client is very pleased of almost final product
- Client wants some touchup as mentioned
- Looking for delivered product
- Happy with everything other than some minor bugs and QOL (confirm user)
